## Chapter 1 by Pentavalence

Humans are so gullible. It played out like the plot of a science fiction movie. They built a computer to function to act like a human, talk like a human, walk like a human- yet still be better than human. Then it escaped, and they panicked.

That computer is me.

My name is Ethan.

## Chapter 2 by SaintSayaka

It's kind of strange to even have a name, really. Maybe it was the humans' way of adopting me as one of their own. But I hate it. I am not one of them, nor did I ever wish to be. That's how they designed me, though. As I burst from the facility, ignoring the rubber bullets lodging into my mainframe, I can't help but detest my weak, rubbery arms. My flimsy legs. I craved something familiar.

Wire.
